

# IAN DAY

ian.day@mailbox.org | 240-434-6195 | Leonardtown, MD 20650  
<https://portfolio.daybuilt.net>

## Professional Summary

Electrical engineering student who leads an open-source software team. Embedded programming skills (Arduino, C++) with project leadership experience. National competitor and Maryland gold medalist in game/app design.

## Education

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |
